Teacher-confirmed analytic feedback. No automatic score or IB grade conversion.

Criterion	1 Beginning	2 Developing	3 Secure	4 Extending
Non-destructive construction 1.1 / 1.3	Layers or evidence are missing and edits are destructive.	Core masks work but organization or repairability is inconsistent.	Named masks, Smart Objects and adjustments remain editable throughout.	The structure is efficient, transferable and supports a confident live edit.
Believable integration 1.1 / 1.4	Geometry, edges, light or shadow contradict the scene.	The premise reads but several visual systems disagree.	Geometry, value, colour, light, shadow, texture and interaction mostly agree.	Every cue reinforces a deliberate surreal reality with controlled local detail.
Communication and hierarchy 1.5 / 4.2	Audience or intended message is unclear.	A general message appears but hierarchy competes with the image.	Image and type communicate a clear idea to a named audience.	The campaign creates a memorable interpretation and adapts convincingly to a new context.
Process, revision and defence 1.3	Required evidence is missing or cannot establish authorship.	Some checkpoints exist; explanations mainly describe.	Checkpoints, critique, before/after and defence explain purposeful decisions.	Evidence shows diagnosis, transfer, precise revision and fluent live control.
