

Decode the Impossible Composite Rubric

F-P-MM12-1.1 | Decode the Impossible Composite

Name _____

Date _____

Teacher-confirmed analytic feedback. No automatic score or IB grade conversion.

Criterion	1 Beginning	2 Developing	3 Secure	4 Extending
Masking and non-destructive technique 1.1	Destructive or incomplete edits obscure the intended effect.	Basic masks work in places; visible edge problems remain.	Clean editable masks and named layers produce a convincing effect.	Edge control remains convincing at difficult details and across changed backgrounds.
Visual integration and design 1.4	Scale, perspective, value or shadow conflict.	The idea reads, but several visual cues disagree.	Scale, perspective, colour, light and shadow mostly agree.	Every integration cue supports a deliberate visual hierarchy and believable depth.
Communication and audience 1.5 / 4.2	The intended idea or audience is unclear.	A recognizable idea has limited audience control.	The composite communicates a clear idea for a named audience.	Visual choices create a specific, memorable interpretation for the audience.
Process evidence and defence 1.3	Evidence is missing or cannot establish the workflow.	Some evidence exists; decisions are mainly described.	Versions, source log, screenshots and defence explain the workflow.	Evidence shows purposeful iteration, transfer and precise technical judgement.
